

Box plot showing the distribution of 'Number of children' for two categories: 'No' (light gray) and 'Yes' (dark gray). The plot includes individual data points, outliers (diamonds), and the MC Median (95% UI) for each group. A horizontal dash-dot line indicates the Optimal Threshold: 57.21.

Legend:

- Individual Data Points
- ◇ Outliers ($> 1.5 \times \text{IQR}$)
- .- Optimal Threshold: 57.21
- MC Median (95% UI)

ACM (N=8)
