

Box plot showing the distribution of 'Number of children' for two categories: 'No' (light gray) and 'Yes' (dark gray). The y-axis represents the 'Number of children' (0 to 20). The x-axis shows the categories 'No' and 'Yes'. A horizontal dashed line indicates the Optimal Threshold: 18.80. The legend identifies the components: Individual Data Points (gray dots), Optimal Threshold: 18.80 (dashed line), and MC Median (95% UI) (black dot with error bars).
